

# ALAN NUNEZ

## SOFTWARE DEVELOPER

### PROFILE

Highly motivated developer, committed to creating outstanding software products by taking into account every aspect of the user experience. Assuring the overall quality of the application is one of my top priorities. Organized, detail-oriented, and critical thinker aiming to build maintainable and scalable software applications. Understanding the client's requirements, communicating the project's progress and the problem-solving actions efficiently is a must for me to produce valuable solutions.
